2nd Preference of the Grade Band you wish to review

---

### Application Questions

---

What state level committees have you served on in the past?

---

What district level committees have you served on in the past?

---

Have you reviewed instructional materials in the past?

---

Describe the experience. Please include the content area reviewed, when you reviewed materials, the process used, and for whom you reviewed materials.

**Why do you want to serve on this committee?**

---

**Describe the most important components that should be reviewed when looking at science materials for a statewide adoption. Provide justification in your response.**

---

**School can feel like a series of disconnected episodes and students may need support making connections between engaging hands-on activities and the big ideas they are supposed to be learning. Describe a strategy that a teacher can use to help students make connections between a specific science activity and one or more science ideas students should uncover during the activity.**
